Distinguishes the three task components from each other						
Uses pincer grasp to grip objects						
Uses palmer grasp to grip objects						
Differentiates item characteristics to identify object by name						
Matches object to label using colored picture						
Counts sequentially from 1 to 10						
Uses one-to-one correspondence when counting objects						
Manipulates objects to place them in appropriate boxes						
Uses appropriate palm strength and hand-eye coordination to place lids on boxes						
Uses both hands simultaneously to complete the task						
Uses sensory input to maintain appropriate proprioceptive feedback						
Self checks personal progress during task						
Grips and releases components intentionally						

Student Work Habits - Check the appropriate description

During the task the student:

Distinguishes the task components from each other						
Uses pincer grasp to grip the containers						
Uses palmer grasp to grip the containers						
Use visual discrimination skills and print concepts to distinguish numbers						
Orders the pill containers in the correct order by number						
Use dexterity of fingers and wrist movement to guide the container into a slot						
Grips and releases components intentionally						
Uses both hands simultaneously to complete the task						
Transfers items to new locations						
Uses sensory input to maintain appropriate proprioceptive feedback						
Self checks personal progress during assembly task						

Student Work Habits - Check the appropriate description

During the task the student:

- Was eager and worked hard to complete the task
- Was willing to attempt the task but needed verbal cues

Distinguishes the two task components from each other						
Recognizes common attributes- specifically size of balls						
Describes balls as small, medium, or large						
Uses pincer grasp to grip the balls						
Uses palmer grasp to grip the balls						
Uses size of item to determine the correct hole to place the item						
Uses hand-eye coordination to manipulate item into the correct hole						
Uses both hands simultaneously to complete the task						
Transfers items to new locations						
Uses sensory input to maintain appropriate proprioceptive feedback						
Self checks personal progress during task						
Grips and releases components intentionally						

Student Work Habits - Check the appropriate description

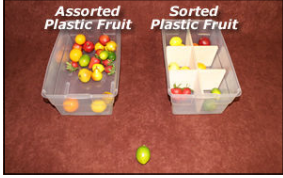

During the task the student:

- Was eager and worked hard to complete the task
